Estrella García Gordillo

Senior Product Designer

EXPERIENCE

from 2025 – present

Synopticons

Senior Product Designer

Leading design on a B2B SaaS platform for European packaging compliance - sole designer owning the full process from strategy to dev handoff.

- Build and scale the Design System using Cursor and AI-powered tools.
- Drive AI-augmented workflows for faster prototyping and iteration.
- Shape brand identity and ensure accurate implementation with dev.

from 2022 to 2025

Designit

Product Designer

Product design consultancy solving complex experience and product challenges for leading global organizations.

- Delivered end-to-end product design across global clients in fintech, mobility, and government sectors.
- Collaborated with multidisciplinary international teams across Europe, Asia, and the Middle East.
- Led UX strategy and research, translating complex user needs into scalable design solutions.

from 2021 to 2022

Deloitte Digital

Senior UX/UI Designer

- Led an international project to develop front-end software consolidating multiple programs into one platform.
- Facilitated stakeholder workshops for service design and conducted B2B testing with key decision-makers across China, US, Russia, UK, Germany, and Turkey.

from 2017 to 2021

Deloitte Consulting

Consultant

- Responsible for the internal communication: Redesigned and significantly improved the communication strategy, content and the visual presentation.
- Designed and created digital products for internal use.
- Responsible for the management committee leading the transformation of the Technology Consulting business.
